- Smart TV Coach
- Pre-Wired for Satellite Dish
- Charging Station for Electronic Devices
- Power Shade for Front Windshield

GALLEY

- Stainless Steel Double Door Refrigerator
- High Rise Kitchen Faucet
- Stainless Steel Sink

The Euro is shorter, more compact and narrow than a traditional A. With its modern design and ample cabinet and countertop space, cooking in the Euro is easy. The back-splash, solid surface, fixtures and extra storage nooks add to its smart design.

The dash includes a computer workstation with 12V, 110V, and USB outlets, perfect for when you want to stay connected. The rear view and side view cameras make it easy to get into tight spaces.

The Euro offers European cabinetry with soft-close drawers and overhead cabinets.

The dash includes a Soft-touch vinyl ceiling has integrated LED strip lighting.

The square windows have integrated day/night shades. These windows provide more airflow and visibility than traditional RV windows.

Even though this coach is more narrow and is shorter in both height and length, it still has the comforts of a king bed, toilet with ample leg room and a large shower.

25EU

Exterior Height: 11' 1"
 Exterior Length: 28' 4"

25LE	28' 4"	11' 1"	99"	6,500 lbs	11,000 lbs	50 gal	31 gal	31 gal

GVWR (Gross Vehicle Weight Rating) is the maximum permissible weight of the unit when fully loaded. It includes all weights, inclusive of all fluids, occupants, cargo, optional equipment and accessories. For safety and product performance do NOT exceed the GVWR.

GCWR (Gross Combined Weight Rating) is the maximum permissible loaded weight of your motor home and any towed trailer or towed vehicle. Actual GCWR of this vehicle may be limited by the sum of the GVWR and the installed hitch receiver maximum capacity rating; see hitch rating label for detail.

GAWR (Gross Axle Weight Rating) is the maximum permissible weight, including cargo, fluids, optional equipment and accessories that can be safely supported by each axle.

UVW (Unloaded Vehicle Weight) * is the typical weight of the unit as manufactured at the factory. It includes all weight at the unit's axle(s), including full fuel, all fluids and LP Gas. The UVW does not include cargo, fresh potable water, additional optional equipment or dealer installed accessories.

*Estimated Average based on standard build optional equipment.

CCC (Cargo Carrying Capacity) ** is the amount of weight available for fresh potable water, cargo, passengers, additional optional equipment and accessories. CCC is equal to GVWR minus UVW. Available CCC should accommodate fresh potable water (8.3 lbs per gallon). Before filling the fresh water tank, empty the black and gray tanks to provide for more cargo capacity.

** Estimated average based on standard build optional equipment

Each Coachmen motorhome is weighed at the manufacturing facility prior to shipping. A label identifying the unloaded vehicle weight of the actual unit and the cargo carrying capacity is applied to every Coachmen motorhome prior to leaving our facilities.

The load capacity of your unit is designated by weight, not by volume, so you cannot necessarily use all available space when loading your unit.

Actual towing capacity is dependent upon your particular loading and towing circumstances, which includes the GVWR, GAWR and GCWR as well as adequate trailer brakes. Please refer to the Operator's Manual of your vehicle for further towing information.

All information contained in this brochure is believed to be accurate at the time of publication. However, during the model year, it may be necessary to make revisions and Coachmen reserves the right to make all such changes without notice, including prices, colors, materials, equipment and specifications as well as the addition of new models and the discontinuance of models shown in this brochure. Therefore, please consult with your Coachmen dealer and confirm the existence of any materials, design or specifications that are material to your purchase decision.

Euro Class A Motorhome with Stealth Exterior (25TB Shown)

THE COACHEMEN ADVANTAGE

What is the Coachmen advantage? It's the collection of unique features offered in a Coachmen motorhome to ensure a smoother ride, a better camping experience, and a motorhome that will last for years.

AZDEL™ COMPOSITE

Most manufacturers use wood sidewalls that can expand, swell, and eventually mold. We use Azdel. It's impervious to water, won't rot or mold, and with less than a 1% chance of delaminating, it ensures the long-term integrity of the sidewalls.

REINFORCED LAMINATION

We vacuum bond and pinch roll every sidewall, floor, and roof, then perform a pull adhesion test. Most manufacturers just do one process or the other, but by doing both we improve the strength and longevity of the sidewalls.

FOREFRONT OF TECHNOLOGY

We offer the latest in technology by pairing electronics with smart phones. A safer and larger viewing area is achieved when dual-mirroring your smart phone GPS to the dash radio and backup system.

DYNAMAT®

Engine cover is lined with Dynamat that decreases engine heat and engine noise. Testing has shown a decrease of 20 decibels and 20° F.

COOL STREAM DUCT™

Our patented duct system evenly disperses air through the whole coach. We use residential ducting instead of Styrofoam because it's antimicrobial, preventing the growth of bacteria and ensuring a cool, clean coach in even scorching heat.

DIGITAL OWNER'S MANUAL

Our owner's manuals are easy to access through the Coachmen website or our free app. Supplemented with videos, PowerPoints, and more, it's got all you need to know about your coach.
